

EZ-Archive

Increase the Speed of Your System without Sacrificing Valuable Data!

EZ-Archive automatically sends selected history files for active and terminated employees to a separate database, increasing the speed of your Abra system.

EZ-Archive Features:

- ◆ Allows you to select files that are designated as history files for active and terminated employees
- ◆ Automatically archives all selected information and posts to a file after a set period of time
- ◆ Can restore information from the archive database by date range or by a specific employee
- ◆ Verifies employment histories for all terminated employees

What about reporting capabilities on archived employee information?

Don't worry! EZ-Archive is designed to allow you to have full reporting functionality with Abra on all employee information, even from the archive database! You have the ability to create custom reports to satisfy all your information needs.

How can I increase the operating speed of my system without deleting valuable employee information?

EZ-Archive provides the solution by:

- ◆ Automatically archiving selected employee data and posting after a set time
- ◆ Allowing you the option to report on archived employees
- ◆ Producing comprehensive reports to show information on all terminated employees
- ◆ Integrating completely into Abra Payroll

Our Mission

"Help companies to ensure human resource and payroll excellence by providing them with high-quality products and services that perform beyond their expectations"

Archiving and Reporting for Abra Payroll
