

EZ-Integrate

Synchronize your Data between different applications with Ease!

Multiple data entry can be time consuming, as well as an opportunity for data inconsistencies. With EZ-Integrate modules from EBS you can integrate your data seamlessly between Abra HR, Accpac, MAS, Timberline and others without error and without effort. EZ-Integrate eliminates double entry by automatically synchronizing data between multiple systems as changes are made or at a scheduled time. The Bi-Directional interface allows you to choose which systems and data to synchronize, including employee information, benefits and more.

EZ-Integrate (Timberline) saves you time by

- ◆ Eliminating Double Entry
- ◆ Automatically Synchronizing Data between multiple systems
- ◆ Being able to run as a system schedule at your pre select times
- ◆ User defined data mappings
- ◆ Bi-Directional Interface
- ◆ Modules include Abra, Accpac, MAS, Timberline and others
- ◆ You choose which data to synchronize
- ◆ Synchronize employee information including benefits

Your time is valuable. Why waste it performing double entry. Say goodbye to data entry errors and let EZ-Integrate do the hard work for you.
