

EZ-Time Import

Seamless Time Clock Integration Into Abra

Import from Your Time Clock Into Abra with Ease!

EZ-Time Import allows you to import time information directly into Abra Payroll from any external time gathering system. The Time Import wizard allows you to define an import from virtually any file including XLS, SDF and CSV file formats. You can import hours, flat amounts, deductions and even attendance transactions. Validations and comprehensive reports are provided through out the import process to ensure that data is being imported correctly. EZ-Tip users can even import gross receipts and valuable tip data.

With EZ-Time Import, you can:

- ◆ Import employee hours from your time clock directly into Abra Payroll
- ◆ Import gross receipts and valuable tip data
- ◆ Check flat amounts, attendance and transactions
- ◆ Validate employees, earning codes and other important information

Now including these features:

- ◆ Time clock import wizard to update from any export file
- ◆ Internal validation to check for time data accuracy

How can I make my current time clock system work with Abra?

EZ-Time Import provides the answer by

- ◆ Automatically importing all your time clock information directly into Abra
- ◆ Producing comprehensive reports that summarize all the posted time data
- ◆ Eliminating the need for time consuming double data entry
