

EZ-Wage & Tax

Simplified Quarter-End Processing for Payroll

Ensure an accurate payroll every time...

EZ-Wage & Tax is our most popular product with several thousand users. It is a special reporting software that locates and highlights employee wage and tax problems in payroll. Run EZ-Wage and Tax after every trial payroll to find and resolve these problems in minutes, eliminating the need for time consuming research at quarter-end. With EZ-Wage & Tax, all balancing is done on one report, streamlining your payroll quarter-end and year-end processing.

Why should you manually calculate each employee's wages and taxes from the check/direct deposit register to make sure they are correct? Even if you have only 50 employees, this sort of error checking can be a pain after each payroll. Let EZ-Wage & Tax do the work for you before you ever process the quarter-end close. Print the EZ-Wage & Tax report and easily find any lurking mistakes during your balancing activity for each payroll.

EZ-Wage & Tax makes solving payroll problems even easier with these new updated features:

- ◆ Capability to filter report for errors only
- ◆ Ability to report based on Federal ID number or company
- ◆ New enhanced criteria to run by: employee, Social Security Number or organizational levels
- ◆ Automatically corrects adjustments made for 3rd party sick pay

How can I solve the nightmare of locating errors during payroll end processing?

EZ-Wage and Tax can save you time and headaches at payroll time by:

- ◆ Automatically evaluating your payroll based on the latest wage and tax laws to find and highlight any errors
- ◆ Producing two comprehensive reports that show you all the wage and tax information for every employee included in your payroll
- ◆ Integrates completely with Abra Payroll
